# Printing this at home

Four things, then you can ignore this page.

- **Print at 100%, or Actual size.**
  Not Fit to page - that shrinks the sheet and takes the writing space with it. Every page already keeps well clear of the paper edge, so nothing is cut off at 100%.

- **Black and white is fine.**
  Nothing here needs colour, and a month of practice should not cost a cartridge.

- **Single-sided, plain paper.**
  Easier to write on, and easier to hand one sheet over at a time.

- **What to hand over.**
  Give your child pages 2 to 7 - the cover and the 5 practice sheets. Keep the rest: the answer key and the results slip are yours.

## How this works

1. Work through the sheets whenever suits - a page at a time is plenty.
2. Mark it together using the answer key, on the grown-up's pages.
3. Tick anything wrong on the results slip. Next month targets exactly those.
